

THE TIME IS NOW

**DO YOUR
PART**

**PRESERVE ANTIMICROBIALS
FOR TOMORROW**

DECEMBER 1, 2018

**All Medically Important
Antimicrobials will be available
by prescription only.**

Visit www.cvo.org/AMR

THE COLLEGE OF
VETERINARIANS
OF ONTARIO

Antimicrobial Resistance (AMR) is a global threat to human and animal health.

The United Nations predicts that **two-thirds of the growth of AMR will come from animal agriculture.**

Health Canada is addressing the challenges of AMR. In one initiative, several Medically Important Antimicrobials (MIAs) will be moved to the Prescription Drug List. **As of December 1, 2018 all MIAs will only be available by prescription.**

As a licensed veterinarian, you can do your part by using antimicrobials responsibly, sharing your knowledge with your clients and reminding them of the December 1, 2018 deadline.

THE TIME IS NOW

Preventing AMR is everyone's responsibility!

For tools and resources you can use to help in the fight against AMR visit www.cvo.org/AMR
