

4. DENTISTRY

Objective: The veterinary practice provides safe veterinary dentistry services that adhere to current clinical standards. Veterinary dentistry involves the examination, diagnosis, and treatment of diseases of the oral cavity. This may involve sedation, anesthesia, analgesia, antibiotic therapy, radiology as well as surgical and other interventions. Oral health care is a vital component of a preventive health care program.

Note: Only a Board-certified specialist (e.g., diplomate of the American Veterinary Dental College (Dipl AVDC) may use the term 'veterinary dental specialist.'

A. EQUINE DENTISTRY Requirements

	YES	NO	N/A
1. A selection of diagnostic and treatment equipment appropriate for the range of species to be treated is available.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
