

# 10. MOBILE

**Objective:** The mobile unit is properly maintained to deliver veterinary services at the premises where the animal(s) are located. A mobile unit travels to the premises where the animal(s) are located to provide veterinary services (e.g., residence of the owner, on farm, community centre, etc.).

A mobile unit has a stationary element called a base unit. The base unit is a space for secure storage of equipment, supplies, pharmaceuticals, and medical records for the mobile unit. The space may be in a hospital, office, a personal residence of the practice owner and/or facility director, or another approved location. Must comply with ES – Facility Structure – base unit for mobile practices.

### Requirements

	YES	NO	N/A
1. Contents of the mobile unit are organized so that they can be obtained readily for efficient service.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Equipment and supplies must be stowed so as not to risk accident or injury.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. There is a means of estimating or measuring the weight of the species routinely treated.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Appropriate personal protective equipment is readily available for work undertaken.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5. The vehicle is clean, uncluttered, in good repair and free of offensive odors.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6. If animals are transported in the vehicle, there are appropriate holding areas and assistive devices for non-ambulatory animals. This not applicable to large animals (i.e. food-producing animals and equine). For companion animal species only.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

### Notes Section: Explain how your facility meets these requirements.
